Notes to the Financial Statements

for the year ended 30 June 2009

1. Basis of preparation of the Financial Report

(a) Basis of accounting

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards and other mandatory professional reporting requirements.

The financial report has been prepared on an accruals basis and is based on historical costs (except for land and buildings and available-for-sale financial assets that have been measured at fair value) and does not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

The financial report was authorised for issue by the Directors on 7 September 2009.

(b) Statement of compliance

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ('AIFRS'). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ('IFRS'). Australian Accounting Standards that have been recently issued or amended, but are not yet effective, have not been adopted in the preparation of this financial report.

(c) Significant accounting policies

The following is a summary of the material accounting policies adopted. The accounting policies have been consistently applied and are consistent with those applied in the 30 June 2008 financial statements.

Income tax

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled.

ABN 90 092 538 620

Notes to the Financial Statements

for the year ended 30 June 2009

1. Basis of preparation of the Financial Report (continued)

Property, plant and equipment

Property, plant and equipment are brought to account at cost less accumulated depreciation and any impairment in value.

Land and buildings are measured at fair value less accumulated depreciation.

Depreciation is calculated on a straight line basis over the estimated useful life of the asset as follows:

<u>Class of Asset</u>	<u>Depreciation Rate</u>
Plant & equipment	2.5 - 20%

Impairment

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Recoverable amount of assets

At each reporting date, the company assesses whether there is any indication that an asset is impaired. Where an indicator of impairment exists, the company makes a formal estimate of the recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included.

East Gosford and Districts Financial Services Ltd

ABN 90 092 538 620

Notes to the Financial Statements

for the year ended 30 June 2009

1. Basis of preparation of the Financial Report (continued)

Goods and services tax (continued)

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet. Cash flows are included in the cash flow statement on a gross basis.

The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

Employee Benefits

The provision for employee benefits to wages, salaries and annual leave represents the amount which the company has a present obligation to pay resulting from employees' services provided up to the balance date. The provision has been calculated on undiscounted amounts based on wage and salary rates expected to be paid and includes related on-costs.

The company contributes to a defined contribution plan. Contributions to employee superannuation funds are charged against income as incurred.

Intangibles

Establishment costs have been initially recorded at cost and amortised on a straight line basis at a rate of 20% per annum.

Cash

Cash on hand and in banks are stated at nominal value.

For the purposes of the cash flow statement, cash includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts.

Comparative Figures

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Revenue

Interest and fee revenue is recognised when earned. All revenue is stated net of the amount of goods and services tax (GST).

East Gosford and Districts Financial Services Ltd

ABN 90 092 538 620

Notes to the Financial Statements
for the year ended 30 June 2009

1. Basis of preparation of the Financial Report (continued)

Receivables and Payables

Receivables and payables are non interest bearing and generally have payment terms of between 30 and 90 days. Receivables are recognised and carried at original invoice amount less a provision for any uncollected debts. Liabilities for trade creditors and other amounts are carried at cost that is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the company.

Interest Bearing Liabilities

All loans are measured at the principal amount. Interest is recognised as an expense as it accrues.

Provisions

Provisions are recognised when the economic entity has a legal, equitable or constructive obligation to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

A provision for dividends is not recognised as a liability unless the dividends are declared, determined or publicly recommended on or before the reporting date.

Contributed Capital

Issued and paid up capital is recognised at the fair value of the consideration received by the company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

23. Financial risk management

The Company has exposure to credit risk, liquidity risk and market risk from their use of financial instruments.

This note presents information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board has established an Audit Committee which reports regularly to the Board. The Audit Committee is assisted in the area of risk management by an internal audit function.

(a) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. For the Company it arises from receivables and cash assets.

The maximum exposure to credit risk at balance date to recognised financial assets is the carrying amount of those assets as disclosed in the Balance Sheet and notes to the financial statements. The Company's maximum exposure to credit risk at reporting date was:

	<u>Carrying Amount</u>	
	<u>2009</u>	<u>2008</u>
	\$	\$
Cash assets	224,764	412,409
Receivables	204,044	167,777
	<u>428,808</u>	<u>580,186</u>

The Company's exposure to credit risk is limited to Australia by geographic area.

None of the assets of the Company are past due (2008: nil past due) and based on historic default rates, the Company believes that no impairment allowance is necessary in respect of assets not past due.

The Company limits its exposure to credit risk by only investing in liquid securities with Bendigo and Adelaide Bank Ltd.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company ensures it will have enough liquidity to meet its liabilities when due under both normal and stressed conditions. Liquidity management is carried out within the guidelines set by the Board.

Typically, the Company maintains sufficient cash on hand to meet expected operational expenses, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

23. Financial risk management (continued)

The following are the estimated contractual maturities of financial liabilities, including estimated interest payments.

Payables	113,568	(113,568)	(113,568)	-	-
	<u>113,568</u>	<u>(113,568)</u>	<u>(113,568)</u>	<u>-</u>	<u>-</u>

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

Interest Rate Risk

Interest rate risk is that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company reviews the exposure to interest rate risk as part of the regular board meetings.

Sensitivity analysis

At the reporting date the interest rate profile of the Company's interest bearing financial instruments was:

	Carrying Amount	
	2009	2008
	\$	\$
Fixed rate instruments		
Financial assets	150,000	200,000
Financial liabilities	-	-
	<u>150,000</u>	<u>200,000</u>
Variable rate instruments		
Financial assets	74,764	212,409
Financial liabilities	-	-
	<u>74,764</u>	<u>212,409</u>

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed interest rate financial assets or liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have no impact on profit or retained earnings. For the analysis performed on the same basis as at 30 June 2008 there was also no impact. As at both dates this assumes all other variables remain constant.

23. Financial risk management (continued)

(d) Net fair values

The net fair values of financial assets and liabilities approximate the carrying values as disclosed in the Balance Sheet. The Company does not have any unrecognised financial instruments at year end.

(e) Capital management

The Board's policy is to maintain a strong capital base so as to sustain future development of the Company. The Board of Directors monitor the return on capital and the level of dividends to shareholders. Capital is represented by total equity as recorded in the Balance Sheet.

In accordance with the franchise agreement, in any 12 month period, the funds distributed to shareholders shall not exceed the Distribution Limit.

- (i) the Distribution Limit is the greater of:
 - (a) 20% of the profit or funds of the Franchisee otherwise available for distribution to shareholders in that 12 month period; and
 - (b) subject to the availability of distributable profits, the Relevant Rate of Return multiplied by the average level of share capital of the Franchisee over that 12 month period; and
- (ii) the Relevant Rate of Return is equal to the weighted average interest rate on 90 day bank bills over that 12 month period plus 5%.

The Board is managing the growth of the business in line with this requirement. There are no other externally imposed capital requirements, although the nature of the Company is such that amounts will be paid in the form of charitable donations and sponsorship. Charitable donations and sponsorship paid for the year ended 30 June 2009 can be seen in the Income Statement.

There were no changes in the Company's approach to capital management during the year.

SCOPE

The financial report comprises the balance sheet, income statement, statement of changes in equity, cash flow statement, accompanying notes to the financial statements, and the directors' declaration for East Gosford & Districts Financial Services Limited, for the year ended 30 June 2009.

The directors of the company are responsible for preparing a financial report that gives a true and fair view of the financial position and performance of the company, and that complies with Accounting Standards in Australia, in accordance with the Corporations Act 2001. This includes responsibility for the maintenance of adequate accounting records and internal controls that are established to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit approach

We conducted an independent audit of the financial report in order to express an opinion on it to the members of the company. Our audit has been conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly in accordance with the Corporations Act 2001, including compliance with Accounting Standards in Australia, and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's financial position, and of its performance as represented by the results of its operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report; and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant account estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

We performed procedures to assess whether the substance of business transactions was accurately reflected in the financial report. These and our other procedures did not include consideration or judgement of the appropriateness or reasonableness of the business plans or strategies adopted by the directors and management of the company.

INDEPENDENCE

We are independent of the company, and have met the independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

AUDIT OPINION

In our opinion, the financial report of East Gosford & Districts Financial Services Limited is in accordance with:

- (a) the Corporations Act 2001 including:
 - (i) giving a true and fair view of the company's financial position as at 30 June 2009 and of their performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and the Corporations Regulations 2001; and
- (b) other mandatory professional reporting requirements in Australia.
