Chairman's report

For year ending 30 June 2007

It is with great pleasure I present the inaugural Annual Report to shareholders of Harden Murrumburrah **Community Bank**[®] Branch.

It has been a big year for "Our Bank". Aside from engaging you and 350 other individuals and organisations within your community as shareholders in this venture, and the long awaited opening of your Harden Murrumburrah **Community Bank**[®] branch, your Board continues to work tirelessly towards making the operation a success for the benefit of the entire community. I would like to thank them for their continued efforts. The Company, as well as the community, is very fortunate to secure professional and talented individuals such as these.

Business levels and support are, and continue to move in a strong positive direction, with the Board confident of achieving, or close to achieving, the figures it set out in its original forecasts for the first 12 months of operation. In light of the current economic conditions faced by the region, this is very encouraging to say the least and can be attributed to Ralph Hawkins and his wonderful staff, who are more than happy to assist you in all your banking requirements.

I thank all shareholders who have helped make the **Community Bank**[®] branch a possibility, to those of you who have brought all or part of their banking business over, a further thank you. For this venture to be an asset for the entire community, it is the entire community that needs to work together to make it a reality. It is only through continued and increasing support that this will happen and we can look forward to making significant contributions to a prosperous, stronger and more vibrant community.

Manager's report

For year ending 30 June 2007

Harden Murrumburrah Community Bank® Branch as at 30 June has been trading all of 12 weeks.

This first 12 weeks was quite hectic for your Customer Service Team - Janelle Slavin, Gale Curtis, Lyn Coddington, Katy Fogg and Ralph Hawkins as we all began to get used to the Bendigo way of banking. All of the team have found this period exciting and very different to our previous banking industry experiences.

Business levels have exceeded \$6 million with 376 accounts open as at 30 June 2007. The ATM is being used more and more each month and is expected to be financially positive for our business and a great asset for the community.

It is confidently anticipated that our business levels at the end of the new financial year will be in excess of \$20 million with approximately 1000 accounts operating.

These results reflect the dedication of the Harden Murrumburrah **Community Bank®** Company Board, your Customer Service Team and the continuing support of each shareholder.

If, as a shareholder, you have not had the opportunity yet to commence your banking relationship with your **Community Bank**[®] branch please do not hesitate to call into the branch to see how we can assist you.

Ralph Hawkins Manager

Bendigo Bank Ltd report

For year ending 30 June 2007

As we approach the 10th anniversary of the **Community Bank**[®] network it is timely to reflect on what has been achieved. The opening of the first **Community Bank**[®] branches in Victoria's Wimmera in 1998 changed the Australian banking landscape – how significant this change has been is only now starting to become obvious.

Today, the **Community Bank**[®] brand is represented in every State and Territory of Australia, with the final frontier, the Northern Territory, falling with the opening of Coolalinga **Community Bank**[®] Branch in September 2006. Nine months later we were celebrating the opening of our 200th **Community Bank**[®] Branch in the Victorian seaside community of Dromana.

When you take the time to list them, the official statistics are impressive:

- \$10 billion in combined banking business
- \$10 million in grants to community groups and projects
- \$7 million in dividends paid to shareholders
- · 1000 Community Bank® branch staff

But perhaps what has been most significant during 2007 have been merger talks. Bendigo rejected a merger proposal from Bank of Queensland in April. Less than four months later, Bendigo Bank's Board unanimously supported a merger proposal with Adelaide Bank. The merger will be voted on by Adelaide Bank shareholders in late-2007.

Under the merged group, our unique **Community Bank**[®] model will continue to grow and prosper, and new Company-owned and **Community Bank**[®] branches will continue to open.

The Bendigo Bank brand will be retained, customers' accounts will not change and the same friendly faces will be at your local branch to provide for your banking needs. As a **Community Bank**[®] shareholder, you will notice no changes – you remain a shareholder of your local community Company.

Nationally, the merger will increase Bendigo Bank's network, delivering our customers access to 24 branches in South Australia and 90 ATMs. Over time, new products and services will follow.

Bendigo Bank participates in the development of community banking with an enormous sense of pride. We are indeed fortunate to be your partner and look forward to celebrating 10 years of community banking in 2008.

Notes to the financial statements

For year ending 30 June 2007

Note 1. Statement of significant accounting policies

The financial report is a general purpose financial report that has been prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards and other mandatory professional reporting requirements.

The financial report covers Murrimboola Financial Services Limited as an individual entity. Murrimboola Financial Services Limited is a Company limited by shares, incorporated and domiciled in Australia.

(A) Basis of preparation

The financial report of Murrimboola Financial Services Limited complies with Australian equivalents to International Financial Reporting Standards (IFRS).

The following is a summary of the material accounting policies adopted by the economic entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied.

(B) Accounting policies

Income tax

The change for current income tax expenses is based on the profit for the year adjusted for any nonassessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted by the balance sheet date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income tax legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Note 1. Statement of significant accounting policies (continued)

Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

a) Property

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arms length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

b) Plant and equipment

Plant and equipment is measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to present values in determining the recoverable amounts.

The cost of fixed assets constructed within Murrimboola Financial Services Limited includes the cost of materials, direct labor, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the income statement and depreciation based on the assets original cost is transferred from the revaluation reserve to retained earnings.

c) Depreciation

16

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a straight line basis over their useful lives to Murrimboola Financial Services Limited commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Note 1. Statement of significant accounting policies (continued)

c) Depreciation (continued)

The depreciation rates used for each class of depreciable asset are:

| Class of asset | Depreciation rate % |
|------------------------|---------------------|
| Leasehold improvements | 10 |
| Plant and equipment | 10 to 40 |

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An assets carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains or losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

Cash

Cash on hand and in banks are stated at nominal value.

For the purposes of the cashflow statement, cash includes cash on hand and in banks and investments in money market instruments, net of outstanding bank drafts.

Receivables and payables

Receivables and payables are non interest bearing. Receivables are recognised and carried at the original invoice amount less a provision for bad debts. Liabilities for trade creditors and other amounts are carried at cost, that is the fair value of the consideration to be paid in the future for goods or services received, whether or not billed to the Company.

Interest bearing liabilities

All loans are measured at the principal amount. Interest is recognised as an expense as it accrues.

Impairment of assets

At each reporting date, the Directors review the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the assets fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the income statement.

Where it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs.

Note 1. Statement of significant accounting policies (continued)

Intangibles

Preliminary and Franchise costs are initially recorded at cost. Preliminary expenses amortised on a straight line basis at the rate of 20% per annum. Franchise fees are amortised on a straight line basis over the term of the agreement.

Employee benefits

Provision is made for the liability for employee entitlements arising from services rendered by employees to balance date. Employee entitlements have been measured at the amount expected to be paid when the liability is settled, plus related on-costs.

The Company contributes to employee superannuation funds. Contributions to these complying funds are charged against income as incurred.

Provisions

Provisions are recognised when Murrimboola Financial Services Limited has a legal or constructive obligation, as a result of past events, for which it is probable that the outflow of economic benefit will result and that the outflow can be measured reliably.

Revenue

Interest, and fee revenue is recognised when earned. All revenue is stated net of the amount of goods and services tax (GST).

Goods and service tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.
